New this year, Hyde Park Day School's Ready to Read Summer Program is designed for entering Kindergarten and 1st grade students who are not reading with ease. Characteristics of students who would benefit from this program may include:

- ✔ Delays in meeting language milestones
- ✔ Difficulty remembering letter names and sounds
- ✔ Avoidance of reading and/or writing tasks in the classroom and at home
- ✔ Family history of reading challenges

With a 5:1 student-teacher ratio, our faculty provides personalized instruction, focusing on phonemic awareness, fluency, and comprehension to strengthen literacy foundations.

Over 4 weeks, students will work with qualified teachers and clinicians to understand their learning profiles. At the program's end, faculty will provide a comprehensive report detailing the student's instructional level, and recommendations for future tutoring or classroom support.
