Hyde Park Day School's Ready to Read Summer Program is designed for students entering **Kindergarten and 1st Grade** who are not reading with ease. Characteristics of students who would benefit from this program may include:

- Delays in meeting language milestones.
- Difficulty remembering letter names and sounds.
- Avoidance of reading and/or writing tasks in the classroom and at home.
- Family history of reading challenges.

With a **5:1 student-teacher ratio**, our faculty provides personalized instruction, focusing on phonemic awareness, fluency, and comprehension to strengthen literacy foundations.

Over 4 weeks, students will work with qualified teachers and clinicians to **understand their unique learning profiles**. At the program's end, faculty will provide a comprehensive report detailing the student's instructional level, and recommendations for future tutoring or classroom support.
